EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kenie Ho (Reg# 51,808) on 1/24/06.

1. The application has been amended as follows:

Claims 5-11 and 16-19 are canceled.

Allowable Subject Matter

2. Claims 1-2 and 12-13 are allowed.

The following is an examiner's statement of reasons for allowance: The cited prior art, Teicher et al US Patent No. 6,257,486, teaches an authentication system that allows authentication when a smart card is presented to a reader, but not otherwise. The cited prior art fails to teach or suggest a switch configured to switch between a first and second state where when in the first state a first device is inhibited from authentication while a second device that has been connected before is allowed to

authenticate and where in a second state the first device is permitted to authenticate. As a result, the cited prior art fails to anticipate or render obvious the above cited claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
